Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of The National Investor Pr.J.S.C. ("the Company") and its subsidiaries (collectively referred to as "the Group") as at 30 June 2025 and the related interim condensed consolidated statement of profit or loss and the interim condensed consolidated statement of comprehensive income for the six-month period then ended and the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flow for the six-month period then ended and other related explanatory notes. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, 'Interim Financial Reporting' as issued by the International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, 'Interim Financial Reporting' as issued by the IASB.

2 Application of new and revised International Financial Reporting Standards (IFRS)

The following new and revised IFRSs, which became effective for annual periods beginning on or after 1 January 2025, have been applied in these interim condensed consolidated financial statements:

• Early adoption of amendments to IAS 21 - Lack of Exchangeability

An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations

New and amended IFRS Standards in issue but not yet effective and not early adopted

• IFRS 18 — Presentation and Disclosure in Financial Statements
IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of
information in financial statements. IFRS 18 was issued in April 2024 and applies to an annual
reporting period beginning on or after 1 January 2027.

Notes to the interim condensed consolidated financial information (continued) For the six months period ended 30 June 2025

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

• Amendment to IFRS 9 and IFRS 7 - Classification and measurement of financial instruments The amendments address matters identified during the post-implementation review of the classification and measurement requirements of IFRS 9 Financial Instruments. These amendments were issued in May 2024 and applies to an annual reporting period beginning on or after 1 January 2026.

Management anticipates that these new standards and amendments will be adopted in the Group's consolidated financial statements as and when they are applicable and adoption of these new standards and amendments, may have no material impact on the consolidated financial statements of the Group in the period of initial application.

3 Material accounting policies

3.1 Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting and comply with the applicable requirements of the laws in the UAE.

These interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Group's consolidated financial statements for the year ended 31 December 2024. In addition, results for the six-month period ended 30 June 2025 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2025.

3.2 Basis of preparation

The interim condensed consolidated financial statements are presented in UAE Dirhams (AED), which is the Company's functional currency and the Group's presentation currency, and all values are rounded to the nearest thousands (AED'000) except when otherwise indicated.

These interim condensed consolidated financial statements have been prepared on a historical cost basis except for assets measured at fair value. The accounting policies used in the preparation of these interim condensed consolidated financial statements are consistent with those applied to the audited annual consolidated financial statements for the year ended 31 December 2024, except for the policies disclosed above and the adoption of new standards and interpretations effective 1 January 2025.

3.3 Basis of consolidation

The interim condensed consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- Has power over the investee
- Is exposed, or has rights, to variable returns from its involvement
- Has the ability to use its power to affect its returns

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Notes to the interim condensed consolidated financial information (continued) For the six months period ended 30 June 2025

3 Material accounting policies (continued)

3.3 Basis of consolidation (continued)

When the Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders
- Potential voting rights held by the Company, other vote holders or other parties
- Rights arising from other contractual arrangements
- Any additional facts and circumstances that indicate that the Company has, or does not have, the
 current ability to direct the relevant activities at the time that decisions need to be made, including
 voting patterns at previous shareholders' meetings

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in profit or loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Non-controlling interests

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of non-controlling shareholders that are present ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the noncontrolling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the noncontrolling interests' share of subsequent changes in equity.

Profit or loss and each component of the other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. The total comprehensive income of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

4 Critical accounting judgements and key sources of estimation uncertainty

The preparation of condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that applied to the consolidated financial statements as at and for the period ended 31 December 2024, except for the adoption of new standards and interpretations effective 1 January 2025.

They are not readily convertible to known amounts of cash without significant risk of changes in value. This classification ensures that users of the financial statements can distinguish between short-term liquid assets and those held for longer-term purposes.
